21 January 1960

MEMORANDUM FOR: [redacted]

Chief, Security Section, DFD

25X1

SUBJECT:

Thermofaxed Copies of OSD Report on Reorientation
of 117L Program, dated 1 December 1958

1. To follow up on our telephone conversation of 19 January 1960, I am forwarding herewith the actual thermofax copy of the subject report picked up at the 117L Advisory Committee Meeting in the offices of the [redacted] on 15 December 1958.

25X1

2. It is very difficult to now recall the precise details of the forementioned meeting, but as I remember it, a small stack of the subject reports was available for study by the committee members. Perhaps it was announced that they were not to be removed from the room. If so, I did not hear the announcement. I knew that Mr. Bissell would be most interested in this and therefore brought a copy back to my office. Quality of reproduction is poor as you can see. Therefore, my secretary typed a copy which was sent to you a few days later in December 1958.

3. It is hoped that the actual thermofax copy forwarded herewith will satisfy your requirements in this matter.

ARTHUR C. LUNDAHL

Director,

Photographic Intelligence Center
